SUMMARY

A proactive Web Developer and Communications & Electronics Engineering graduate with hands-on experience in modern web technologies, eager to contribute to building high-quality web applications. Skilled in JavaScript, TypeScript, React, and Next.js, with a solid foundation in HTML, CSS, and responsive design. Possessing a strong problem-solving mindset and a commitment to self-learning, I am keen to apply my frontend development skills and collaborate with experienced engineers to deliver impactful production features in a remote, flexible environment.

SKILLS

- **Domain Skills**: Web Development, UI/UX Design Translation, API Integration, Cross-Browser Compatibility
- **Technical Skills**: C, C++, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Angular, React.js, Next.js, Redux, Zustand, Redux, PHP, Node.js (Basics), SQL, Git, Webpack, RESTful APIs, Firebase, Sass, Pug, Gulp.js, Bootstrap, Responsive Design, Component-Based Architecture, Web Accessibility
- **Soft Skills**: Team Collaboration, Time Management, Self-learning, Attention to Details, Problem Solving, Proactive Approach

WORK EXPERIENCE

Freelance Front-End Developer   October 2025 - November 2025
Aydin Labs   *Remote*

- Built the Charts Section for an AI Agent and CRM dashboard using Next.js, TailwindCSS, TypeScript, and Recharts.
- Developed the entire front-end of the Mockup Workspace for an AI Image Platform using React, Zustand, and TailwindCSS.
- Integrated the Mockup Workspace UI with the backend API and implemented logic to send image data and display generated results.

Web Developer   August 2021 - September 2021
Ipda3 Teck   *Mansoura, Egypt*

- Collaborated with the team to develop software solutions and features.
- Debugged and tested code to ensure functionality and performance.
- Gained practical experience working with HTML, CSS, and JavaScript in a professional setting.

Web developer Trainee   December 2022 - February 2023
ITIDA   *Remote Training – Cairo, Egypt*

- Enhanced frontend and backend development skills through structured training.
- Gained hands-on experience in project planning, API integration, and building user interfaces.
- Completed 2 real-world projects: Weather Journal App and Mock Freelance Client Project.

EDUCATION

Mansoura University   Mansoura, Egypt
Bachelor of Engineering, Major in Communications & Electronics   *January 2017 - December 2023*

PROJECTS

[TERYAQ – Medication Management Web App (React, Firebase))](#) ⚭

Graduation project that developed a smart medicine box integrated with a responsive web app to help patients manage medications. Features real-time control and schedule customization using React.js and Firebase Realtime Database. Includes voice command support, categorized slots, and accessibility-focused design.

Quizzes Website ✎

A responsive and scalable quizzes web app built with TypeScript, Tailwind CSS, and Webpack. Integrated Firebase Authentication and Database to manage user login, quiz data, and solutions. Applied feature-based architecture and real-world planning for clean, maintainable, and structured code.

E-Commerce Store Website ✎

Developed a responsive and interactive e-commerce website featuring secure authentication, product filtering, shopping cart, and favorites list. Utilized Pug, Sass, and Gulp.js for performance optimization and an enhanced development workflow, focusing on clean UI, user experience, and scalable code structure.

Cinemania - Movie & TV Discovery Platform (React.js) ✎

A responsive web application for browsing and discovering the latest movies and TV shows. Implemented filtering, dynamic routing, and subscription features using React Router and React Query. Designed with smooth transitions and a user-friendly interface for an engaging cinema experience.

Seafarer Management System (Angular) ✎

Built A management system for seafarers in Angular to view the seafarers, edit and add new ones, and control their activation period with features to view, edit, add, and control the activation period of seafarers.
